SPECIAL ISSUE

Context and Thought Experiments in Science Education

1–2 Beyond the Textbook: Reaching Out to the Context and to History
Ian Winchester, Editor

3–5 Introduction: Context and Thought Experiments in Science Learning
Stephen Klassen and Arthur Stinner, Guest Editors

7–17 Large Context Problems and Their Applications to Education: Some Contemporary Examples
Ian Winchester

19–30 The Large Context Problem (LCP) Approach
Arthur Stinner

31–62 A Theoretical Framework for Contextual Science Teaching
Stephen Klassen

63–75 The Promise and Perils of Thought Experiments
James Robert Brown

77–96 The Science Thought Experiment: How Might it be Used Profitably in the Classroom?
Stephen Klassen

Interchange, Vol. 37/4, 411–413, 2006. © Springer 2006

97–113 The Context of Thought Experiments in Physics Learning
Miriam Reiner

115–128 What History Can Teach Us About Science: Theory and Experiment, Data and Evidence
Trevor H. Levere

129–150 Facilitating Chemistry Teachers' Understanding of Alternative Interpretations of Conceptual Change
Mansoor Niaz

151–178 An Ode to Imre Lakatos: Quasi-Thought Experiments to Bridge the Ideal and Actual Mathematics Classrooms
Bharath Sriraman

179–180 *CONTRIBUTORS*

Volume 37, Number 3, 2006

ARTICLES

181–199 Exploring Constitutive Meanings of Educational Transformation in South Africa
Berte Van Wyk

201–223 Islamic Schools in the Netherlands: Expansion or Marginalization?
Geert Driessen and *Michael S. Merry*

225–250 Privileging and Artifacts: On the Use of Information Technology in Science Education
Jonas Almqvist and *Leif Östman*

251–275 Challenges and Possibilities in a Postmodern Culture of Emotions in Education
Michalinos Zembylas

CRITICAL NOTICE

277–283 Critical Pedagogy for Transformative Optimism
Peter Mayo

285–286 *CONTRIBUTORS*

Volume 37, Number 4, 2006

ARTICLES

287–307 Empirical Research into Teaching
Robin Barrow

309–331 Participation Making a Difference? Critical Analysis of the Participatory Claims of Change, Reversal, and Empowerment
Jan Masschelein and *Kerlijn Quaghebeur*

333–361 Explorations of a Paradox in Curriculum Control: Resistance to Open-ended Science Inquiry in a School for Self-directed Learning
J. Lawrence Bencze and *Maurice Di Giuseppe*

363–394 The Sense of the Worthy as a Motivation for Studying: The Case of the Yeshiva
Mordecai Nisan and *Yishai Shalif*

INTERCHANGE EXCHANGE

395–396 Response to Book Review by Gerald F. Smith
William L. Griffen

397–401 Response to Book Review by Gerald F. Smith
Richard A. Brosio
